

## RESULTS SUMMER 2026

We do hope that you are pleased with your results. If any of your results are below expectations we advise in the first instance, to **talk the situation through with the relevant subject staff.**

### **Post results options:**

- 1. Photocopy of Script** - You can request a **photocopy** of your script for any component or unit to check whether it would be worth asking for a review of marking or to see where you could improve by resitting the paper. Students' authorisation must be obtained to access scripts.
- 2. Priority Review of Marking** **Deadline 20<sup>th</sup> August - A Levels ONLY.** If your university place depends on the result you can apply for a Priority review of mark. Awarding bodies strongly advise candidates to inform their University/College that a review of results has been requested. By informing them, they **may** be able to keep the candidates place open until the review has been completed.
- 3. Review of Marking** - You can ask for a **review of marking** of one or more of your papers\*. You should discuss this with your subject teacher first. \*Please read individual awarding body terms and conditions together with associated fees – detailed below.
- 4. Re-Sits.** - Resits for English Language and Maths GCSE are in November 2026. Resits in any other qualification, will be May/June 2027 subject to review.

**Post results requests will only be accepted and submitted on production of the completed form together with payment.**

Credit/debit card ONLY (No cash or cheques) Scopay is possible from 2<sup>nd</sup> September for existing students only.

### **Exams Office will be open:**

|           |                                   |                     |

Edexcel T&C's When submitting components for review, please note that the timing of your requests will affect the fees charged.

If the subject grade changes, no fee will be applied to components that:

- are submitted together at the same time, or
- are submitted separately, but the linked components are still marked as 'In progress' on Edexcel Online and the new component is added to the existing case.

However, if you submit a component after the review of a linked component has been completed, each component will be charged separately. The fee for each will depend on whether it results in a change to the overall subject grade.
